

IBERAMBALAJ[®]
SANAYİ VE TİCARET A.Ş.

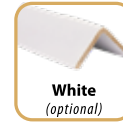

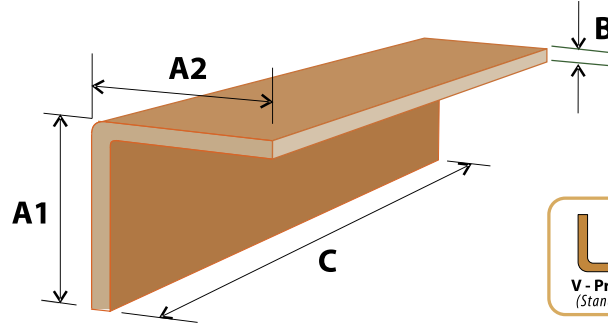

Having extensive expertise in the packaging industry since 1987, we are dedicated to meeting your packaging needs.

By prioritizing sustainability, we place people first, and that's why our exclusive focus is on crafting fully recyclable products.

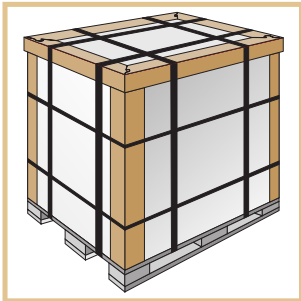

Cardboard Edgeboard

Our standard edgeboards enhance the durability of pallets, ensuring maximum protection for products during loading, transportation, and storage.

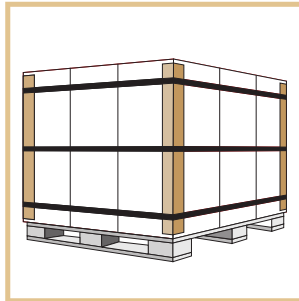

A1 (mm)	A2 (mm)	B (mm)	C (mm)
30	30	2 - 6	50 - 6000
35	35		
40	40		
45	45	2 - 10	
50	50		
55	55		
60	60		
65	65		
70	70		
75	75		
80	80		
85	85		
90	90		
95	95		
100	100		

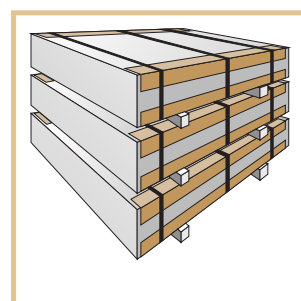

Tolerances:
Width (A1-A2) : $\pm 3\text{mm}$
Thickness (B) : $\pm 0.3\text{mm}$
Length (C) : $\pm 10\text{mm}$
Angle : $90^\circ \pm 10$

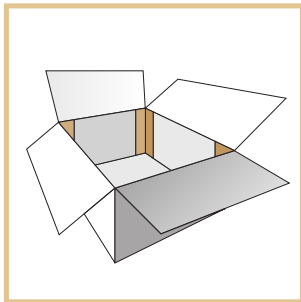

Simultaneous use in vertical and horizontal edges provides excellent protection for your products.

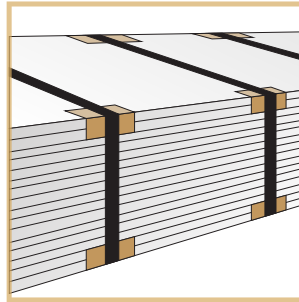

Vertical use enhances pallet durability and prevents products from being crushed or scattered.

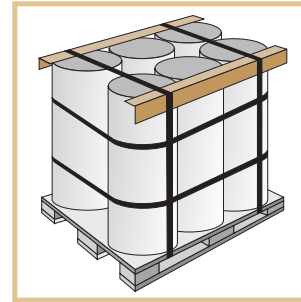

Horizontal use allows stacking of two or more pallets during transportation and storage.

Increases the vertical resistance of cardboard boxes, preventing them from collapsing.

Prevents products from getting damaged during strapping.

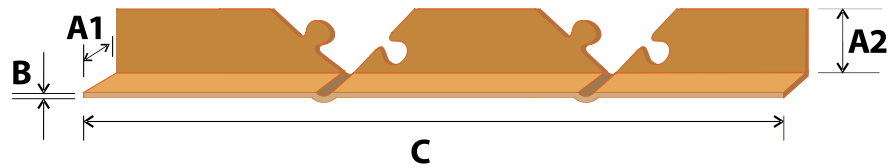

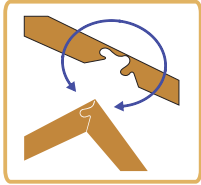

Locked Edgeboard

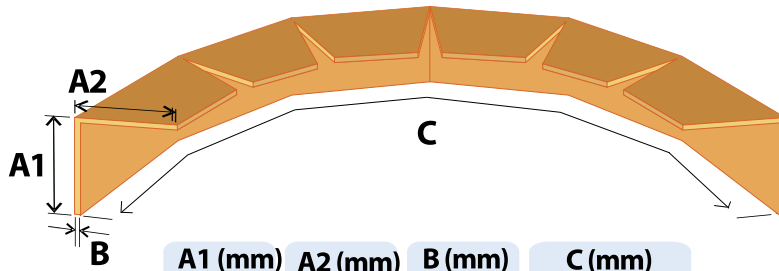

Provides for an easy application with a puzzle-like interlocking locking system.

A1 (mm)	A2(mm)	B (mm)	C (mm)
40 - 60	40- 60	2 - 6	100- 3000

Wrap-Around Edgeboard

Wrap-Around Edgeboards prevent damage to cylindrical products transferred in roll or coil form during loading, transportation and storage.

A1 (mm)	A2 (mm)	B (mm)	C (mm)
45 - 60	45 - 60	3 - 6	max 3000

Moisture-Resistant Edgeboard

Moisture-resistant edgeboards provide excellent protection for your products in cold storage facilities and high-humidity environments.
